Performance Management System

Benefits

- Links all departments to improve communication and accountability.
- Provides a centralised database of key information.
- Improves efficiency and effectiveness of staff.
- Enables athlete monitoring, player tracking and workload management in real time.
- Facilitates injury prevention and improved rehabilitation.
- Enables evidence based decisions and coach-led analytics.
- Allows data mining for patterns and trends.
- Provides instantly available schedule - training, performance testing, matches and media / community activity.
- Supports personal improvement plans for players / athletes to maximise potential.
- Provides a highly focused recruitment process with a coordinated approach to succession planning.
- Underpins the entire performance cycle.

“The Sports Office is a hugely powerful tool allowing us to quickly and easily manage our key performance processes. It helps us give the best possible preparation.”

David Stevenson
Head of Performance
Analysis SFA

“The Sports Office system provides a whole league comprehensive electronic medical record with an integrated injury surveillance function. It’s fundamental to the delivery of sports medicine care to our Premiership and England representative team players. Our players, medical staff and performance teams all derive significant benefits.”

Dr Simon Kemp
Chief Medical Officer
Rugby Football Union
