INFORMATION

Build reports with the information that matters.

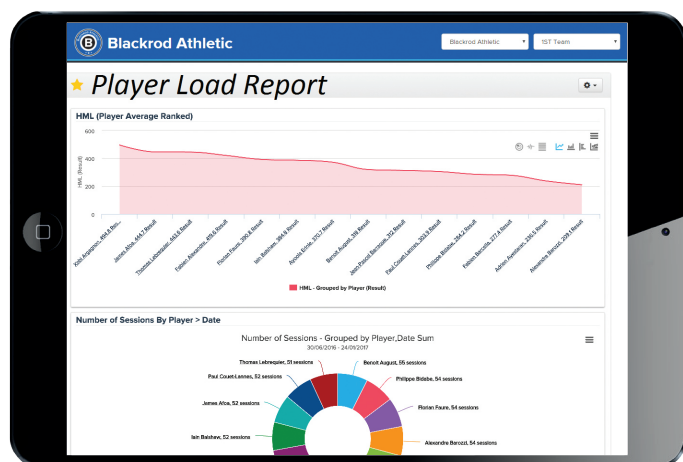

- Templates can be created for teams, individuals or a combination of both.
- Reports can include any or all elements of your organisation's performance data.
- Each element can consist of different variables and show data over specific time frames.
- All information displays are easy to read and visually engaging: text, images, charts, tables and graphs.
- Users have total control over report content and appearance.

INTELLIGENCE

Visualise, share and interact.

- Once a template has been created it can be shared instantly with colleagues.
- PDF copies can be scheduled to run and can be automatically emailed to specific users. This enhances communications between departments.
- Interactive charts allow users to 'drill down' through specific metrics.
- Easily compare teams, groups and/or individual athletes for any data collected. This includes the ability to rank by result.
- This feature also enables a report to be set as a specific custom dashboard or an intuitive default landing page.
- Reports can be built across multiple teams allowing for club-wide auditing across each department.

PERFORMANCE

Instant review and performance evaluation of your teams and players.

- Use the Report Builder to quickly access the information that matters to you.
- Automation allows reports to be emailed and released at predetermined times.
- Use the reports to present engaging and practical feedback to athletes and colleagues.

The Report Builder is available for use now on your system.
